### Nocturnal Animals

On a moonlit night when the stars are out  
There are nocturnal animals all about  
Who, who, who, what do I see?  
A wise old **owl** looking at me...

Meow, meow, meow, what do I see?  
A curious **kitten** looking at me...

Eee, eee, eee, what do I see?  
A little brown **bat** just looking at me...

Peek, peek, peek, what do I see?  
A **raccoon** robber looking at me...

Squeak, squeak, squeak, what do I see?  
A little brown **mousie** looking at me...  
Puppets or felt board

If you put “funny” in the search box it brings up a post about April Fool’s Day, which was last week.

In this black and white picture you can’t tell what the trick was—go to the website and you’ll see the Jaguar car was completely covered with Post-It notes! Then take a look at the math problems for your age.
